India's First PET Circular Enterprise

PIONEERS IN SUSTAINABLE PACKAGING SOLUTIONS

With a proud legacy spanning four decades & more in the plastic packaging industry, Magpet Polymers Private Limited is the premier PET converter in East and North East India. Our strong backward integration into the manufacturing of recycled PET (rPET) flakes and pellets underline our position as a responsible corporate organisation, and has set us on the way to becoming India's first PET circular entity.

Innovate. Sustain. Lead.
This is our pledge to the future of plastic packaging.

WE ARE GUIDED BY OUR PRINCIPLES OF EXCELLENCE

Powered by visionary leadership, we are driven by an unwavering motto to deliver high-quality solutions and drive innovation in the plastic packaging industry, while minimising environmental impact and ensuring sustainability.

OUR VISION

To lead the packaging industry by delivering innovative & sustainable solutions that protect products, enhance brands, and contribute to a greener planet.

OUR MISSION

We at Magnum strive to be a customer centric organisation with a constant endeavour to create and add value to the PET Products by constantly upgrading technology and processes which, in turn, benefit our customers always, and help us achieve our goals.

VALUES

Honesty being the guiding light, we believe in transparent working principles, policy & practices and all of this translates to complete confidence of working with each of Magnum Group members.

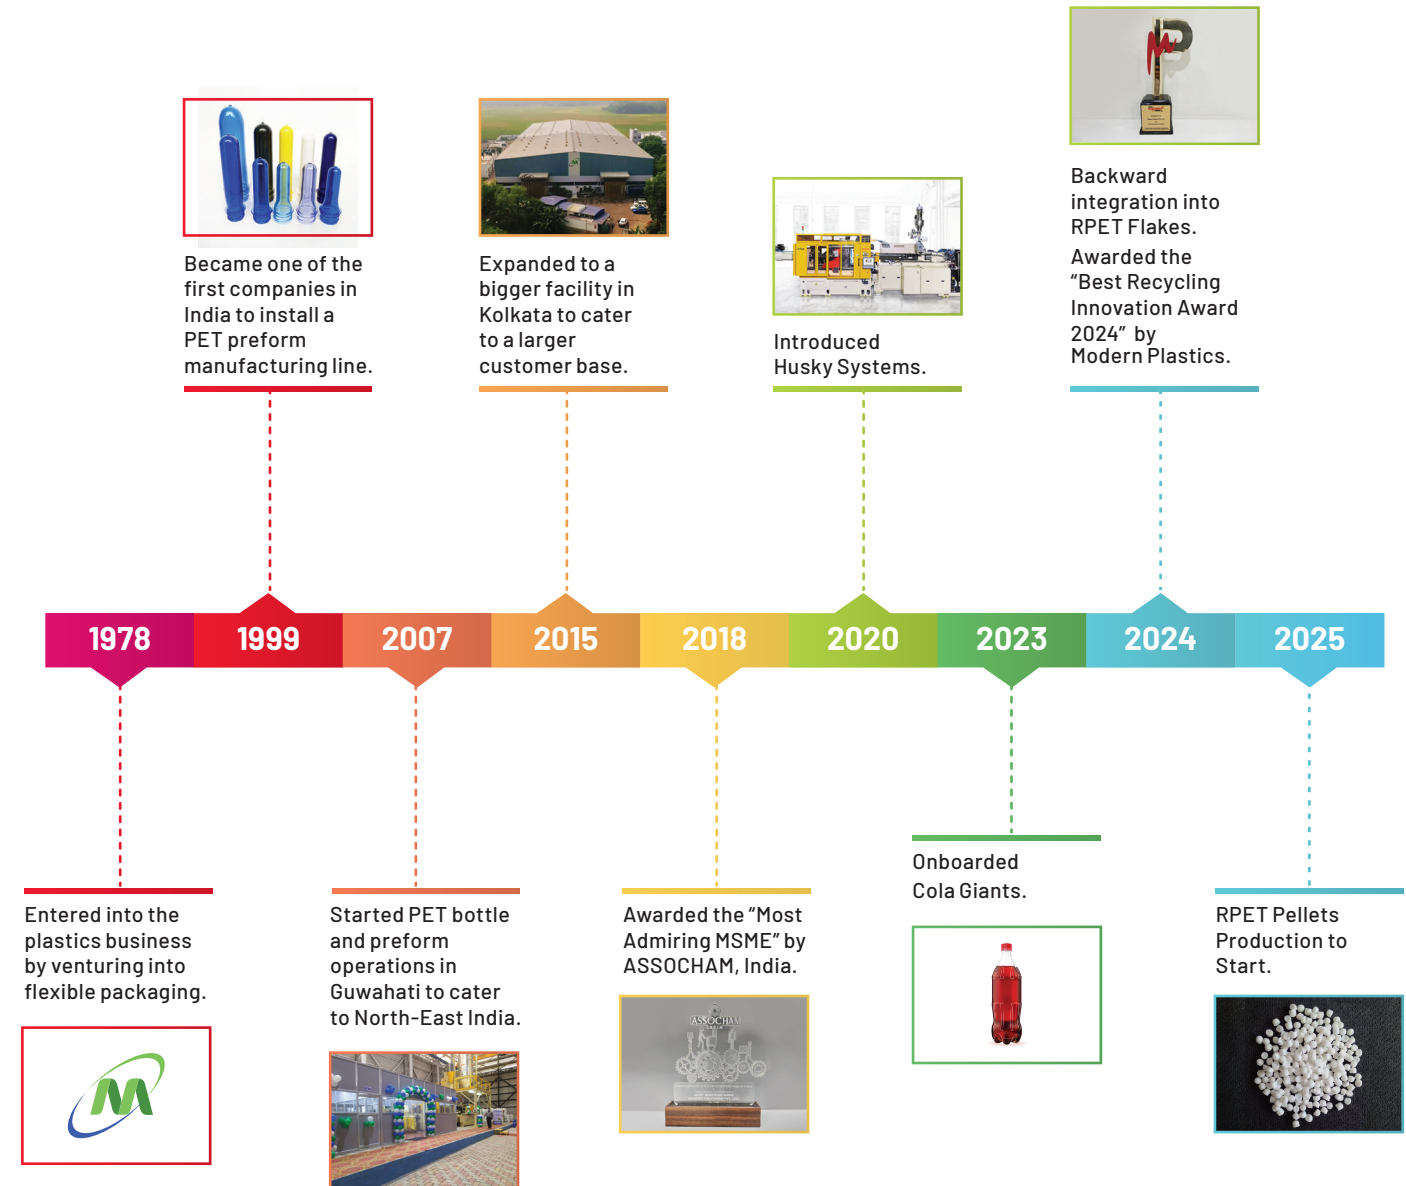

MAGNUM MANTRA

IN PRACTICE TODAY FOR A BRIGHTER TOMORROW

A LEGACY OF CONTINUOUS EVOLUTION

Across decades, Magpet Polymers has been synonymous with excellence in the field of plastic packaging solutions. As a professionally managed and highly system-driven business, we adhere to an 'innovation-first' approach, challenging boundaries and delivering the finest customised solutions to clients.

AHEAD AT EVERY STAGE

With a combination of state-of-the-art production infrastructure, streamlined workflows, and our highly skilled in-house workforce, we are constantly on the lookout to deliver competitive advantages to our clients. Our attention to detail and adherence to stringent manufacturing standards set our products apart from the competition.

THE MAGPET EDGE

UNMATCHED QUALITY

Commitment to excellence in every preform and bottle.

NEAR-ZERO REJECTION

Superior manufacturing processes ensure minimal waste.

EXCELLENT SHINE AND CLARITY

High standards for visual appeal and product transparency.

EASE OF BLOWING BOTTLE

Designed for efficient and trouble-free bottle formation.

HIGHER YIELD

Optimised production processes for maximum output.

DEPLOYING LATEST TECHNOLOGY

Produced using Husky and ASB Preform Systems.

QA & QC

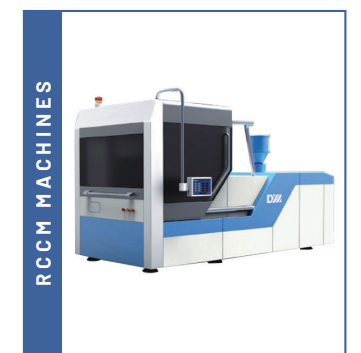

Stringent quality control measures at every stage.

SAP-ENABLED

A comprehensive system driven organisation.

WORLD-CLASS INFRASTRUCTURE FOR BEST-IN-CLASS PRODUCTS

Our strategically located, state-of-the-art manufacturing facilities in Kolkata (West Bengal) and Guwahati (Assam) are equipped with machinery from leading machine manufacturers. We have always been the first to adopt the latest technologies in our in-house processes.

DELIVERING VALUE ACROSS DIVERSE MARKETS

With a comprehensive range of PET preforms, bottles, and caps & closures, we deliver customised and high-quality plastic packaging solutions to our clients from various industries.

QUALITY PRODUCTS FOR DIVERSE APPLICATIONS

Our diversified and steadily expanding product portfolio helps us cater to the precise requirements of diverse industries. We have a strong presence in the PET preforms (with 100+ SKUs) and 20 litres Jars segments.

PET RECYCLING FOR A SUSTAINABLE FUTURE

PET is fast emerging as the plastic packaging of choice due to its infinite recycling possibility. This has opened up a large opportunity for its consumption and growth. Magpet was in the front-end of manufacturing PET Preforms and Containers, and is now graduating towards becoming a Circular Enterprise through its 45,000 MTPA RPET unit being set up in West Bengal, India.

Efficient recycling holds the key for reducing plastic pollution & protecting the planet for future generations. Through strategic initiatives & eco-friendly innovations, we are committed to build a plastic-neutral future for the planet. METAPET RPET resins from Magpet help to create a cleaner and greener future.

OUR MACHINERY TO FOSTER BOTTLE-TO-BOTTLE RECYCLING

To achieve efficient and sustainable bottle-to-bottle recycling, we leverage cutting-edge technology from top global machine manufacturers. Our advanced setup ensures high-quality, eco-friendly recycling processes, setting new standards in PET recycling and contributing to a circular economy for plastic packaging.

INTEGRATED SOCIAL INCLUSION MODEL FOR WASTE COLLECTORS

Through this campaign, we are looking to guide the informal waste sector towards dignified livelihood.

EMPOWERING HOLISTIC GROWTH

We are proud to be associated with multiple local NGOs to support key initiatives like rural health, child education, woman empowerment, and more.

BE A GREEN AMBASSADOR

As global citizens, we realise that plastic recycling is a key element in our efforts towards protecting, preserving and nurturing Mother Earth.

With an unwavering focus on generating awareness about the importance and benefits of plastic recycling, we are setting up our Smart Bins at strategic locations across Eastern India.

PROUD TO SUPPORT SUSTAINABLE DEVELOPMENT GOALS

Through the #EcoRevive initiative, we have made a conscious effort to support the Sustainable Development Goals (SDG), outlined by the United Nations. After all, it's our planet...and we care.
